ThinkPad R500

Cost-effective productivity in a 15.4" platform

ThinkPad R Series notebooks give you a blend of productivity, mobility, security and performance.

Why consider upgrading from a ThinkPad SL to a ThinkPad R?

Traditional ThinkPad design

- Fully dockable (port replicator, min-dock, advanced dock)
- Ultrabay (ability to remove the optical and add a 2nd battery)
- DDR3 memory

The New ThinkPad T400s. The Thinnest Lightest ThinkPad T Series Ever.

The incredible new ThinkPad T400s from Lenovo is here, and it's ready to revolutionize notebook computing. Powered by an Intel® Core™2 Duo processor, it packs the performance of the legendary ThinkPad T Series into an ultra-thin and light body, taking performance and portability to a whole new level. Weighing a mere 3.9lbs and 0.83 inches thin, this super-portable notebook can boast of all the traits of its predecessors along with a host of new ones. Pick one up, it won't be easy to find another machine that packs so much into so little.

ThinkPad X301 Ultraportable

The thinnest and lightest full-function notebooks in its class.

The ultraportable X301 models including the integrated DVD burner weigh in at a slight 3.1 lbs.

At less than 3/4 of an inch at its thinnest, X301 models set a new standard for full-function notebooks.

X301 models feature 3 USB ports plus external display, headphone/line-out and microphone/line-in. And the new X301 features a DisplayPort that combines HD video and audio into a single digital connector-interface making digital display easier, more readily available and with increased performance.

X301 models are equipped with dual speakers for enhanced stereo sound not typical in most ultraportables.

The ThinkPad X301 models feature 13.3" widescreen displays. A workspace roomy enough for spreadsheets yet perfectly scaled for optimum portability.

Online Data Backup

Protect your business data with a secure backup solution

Lenovo Online Data Backup for PCs was designed to provide an easy, secure, offsite online data protection solution to protect your data.

Lenovo Online Data Backup for PCs can help you recover essential information in the event of system theft, damage, or operating or application error or failure.

An Efficient Solution to Protect Your Data

Online Data Backup frees up your valuable in-house IT resources for productive use in core revenue-generating activities. Total Cost of Ownership studies show a savings of 30 percent or more over do-it-yourself offsite backup solutions. As an offsite, online application, Lenovo Online Data Backup will become a valuable part of your business and an information security solution you will come to rely on.

Security for Safekeeping of Your Data

Lenovo's Online Data backup provides protection against the unexpected as well as safekeeping of your data in your own, personally accessible 'vault'. With 256-bit AES encryption, the option of a private encryption key, dual authentication for data access, and physical security at the offsite storage location, this is a solution that serves as your personal data deposit box...to which you hold the only key.

Secure Backup Solution With:

- No capital cost (hardware/software)
- No infrastructure to own, operate, power, cool manage or maintain
- No physical storage media to manage, store or transport

Here is how Lenovo Online Data Backup for PCs benefits you:

- Multi-layered data encryption protects your most critical business and employee data
- If computer is lost or stolen, you still have your files
- Your data is available worldwide - all you need is an Internet connection
- Data is encrypted by AES (Advanced Encryption Standard) with a 256-bit key to keep your data secure
- Option of using a default encryption key or your own private key to encrypt your data

Other Benefits

- No capital cost (hardware/software)
- No infrastructure to own, operate, power, cool manage or maintain
- No physical storage media to manage, store or transport

Part	Description	List Price
51J0794	OLDB, 10GB Storage for 1 Year	\$25
